

# Shinseisha Group SDGs

"Sustainable Development Goals"

**As a member of the international community, the Shinseisha Group will support the Sustainable Development Goals (SDGs) and contribute to the realization of a better international community through abundant communication activities.**

Based on the basic management policy of "Contributing to the local community through community-based management" We will fulfill our mission by giving consideration to people and the environment, developing human resources, and contributing to the local community.

Based on this, the Shinseisha Group will realize a sustainable society by achieving the goals of the SDGs.

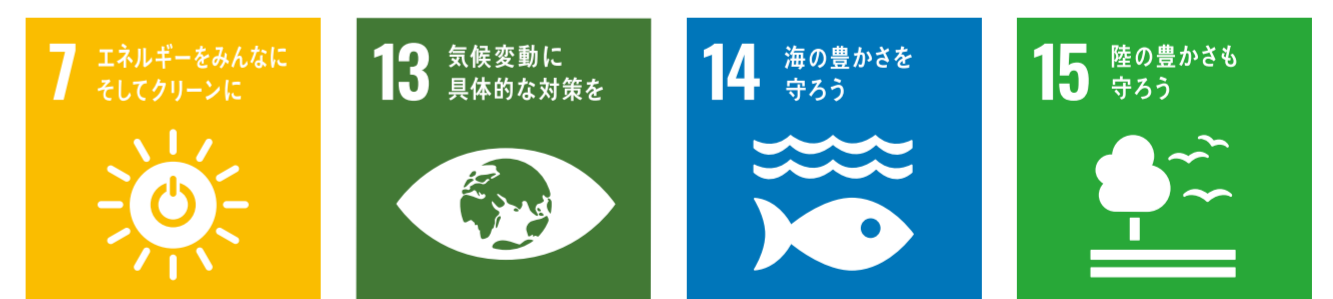

## SUSTAINABLE DEVELOPMENT GOALS

SDGs aim to solve social problems such as climate change and inequality, and people live like human beings such as poverty and hunger, water and health, education, medical care, freedom of speech and gender in order to create a bright future. The goal is to achieve the social foundation for by 2030, which consists of 17 goals and 169 targets. "Sustainable Development Goals"

### ENVIRONMENT

Minimize the discharge of waste and chemical substances associated with the production of printed matter, thoroughly recycle paper, and create environmentally and human-friendly products such as water use, wastewater, and recycled paper.

### SOCIETY

We will promote the creation of a comfortable working environment and develop human resources with high employee health and expertise. In addition, we will contribute to vocational education for young people and the establishment of local communities through factory tours.

### ECONOMY

Taking advantage of the characteristics of the printing industry, we will contribute to the revitalization of the local economy by developing products and services that contribute to the local community and deepening cooperation with local companies.
